CHILDREN'S HEALTH INSURANCE PROGRAM (CHIP)
ENROLLMENT and BENEFITS HANDBOOK

Released January 1, 2026

Introduction

Title XXI of the Social Security Act, enacted in 1997 by the Balanced Budget Act, allowed for the creation of the Children's Health Insurance Program (CHIP). CHIP was established to provide health coverage to uninsured children that reside in households with incomes that are too high to qualify for Medicaid. The program also allows those that do not meet the income guidelines to purchase the coverage at the state's negotiated rate.

The CHIP Enrollment and Benefits Handbook serves to provide a comprehensive guide that will ensure proper implementation of statutory requirements, pursuant to Title XXI of the Social Security Act, the Children's Health Care Act, and the Patient Protection and Affordable Care Act (PPACA or more commonly referred to as ACA).

The Enrollment and Benefits Handbook is divided into 2 parts:

Part 1: The enrollment policy as well as premium and cost sharing requirements.

Part 2: The current benefit package.

GLOSSARY

Please refer to the Procedures Handbook and Agreement for common definitions and acronyms. For the purpose of this Enrollment and Benefits Handbook, the following definitions shall apply:

Cost Sharing – The premium contributions and copayments the enrollee's household is responsible to pay.

Enrollment Period – The twelve (12) consecutive calendar months an eligible child receives services.

Newborn – An infant from birth to 1 month of age.

Out-of-Pocket Cost Sharing – Includes premiums and point-of-service co-payments paid by families to MCOs or providers on behalf of an enrollee in a Low- or Full-Cost category of CHIP for CHIP covered benefits and services only.

Pre-existing Condition – A condition (whether physical or mental) for which medical advice, diagnosis, care or treatment was recommended or has been received prior to the effective date of coverage.

PART 1 – ENROLLMENT

CHAPTER 1: ELIGIBILITY FOR THE CHIP PROGRAM

1.1 GENERAL REQUIREMENTS

Targeted low-income children who are ineligible for Medicaid and not covered under a group health plan or health insurance (including access to a state health benefits plan) are eligible for CHIP.

CHIP provides health care coverage for children from birth through the age of 18. CHIP is administered in three tiers.

- CHIP provides free coverage to children in families whose income is too high for Medicaid and at or under 208% of the Federal Poverty Level (FPL).
- CHIP provides subsidized coverage (known as Low-Cost CHIP) to children in families whose income is greater than 208% FPL and at or under 314% FPL.
- CHIP provides Full-Cost coverage (at a rate agreed upon between the MCOs and the state) for children in families whose income is greater than 314% FPL.

The federal law mandates CHIP eligible children receive 12 months of continuous eligibility (CE). All enrollees will remain enrolled regardless of any changes in the family circumstances for 12 consecutive months or until the child turns 19. The continuous eligibility period begins at the effective date of the child's most recent determination or redetermination of eligibility and ends on the last day of the 12th month in the continuous eligibility period.

The Department determines eligibility for the CHIP program. If an applicant does not choose an MCO at the time of application, then the child is automatically assigned an MCO using a "round robin" assignment system. This will ensure an equitable distribution of enrollees to all MCOs within a county. If a household with existing CHIP coverage adds a new child, the application will be assigned to the MCO with the existing provider-beneficiary relationship.

1.2 DISENROLLMENT

A child may not be disenrolled during a continuous eligibility period unless:

- A child becomes 19 years of age.
- A child in a Full-Cost budget is found to have other insurance or is eligible for coverage through a state health benefit plan.
- A child is eligible for MA.
- A child moves out of state.
- A child is deceased.
- A voluntary termination of coverage is requested by the head of household.
- Information was omitted or misinformation was provided at the time of the application

or renewal that would have resulted in a different eligibility determination had the correct information been provided

- Citizenship and identity are not verified within the 90-day conditional eligibility period.
- A child in Full-Cost CHIP fails to pay the required monthly premium.

NOTE: A family's household circumstances may change during the 12-month CE period. It is allowable for an enrollee to be moved to a lower premium category for the remainder of the eligibility period. It is not allowable to move an enrollee to a higher premium category during the CE period.

There is no restriction on an enrollee's right to voluntarily withdraw from CHIP at any time during the 12-month eligibility period.

1.3 SPECIAL CIRCUMSTANCES

Mandatory 12-Month Postpartum Coverage:

Pregnant or postpartum enrollees will remain eligible for the duration of the pregnancy and the 12-month postpartum period. The 12-month postpartum coverage becomes effective on the day the pregnancy ends. The enrollee will have continuous eligibility for a full 12 months following that date.

Reasonable Opportunity Period:

If citizenship and identity **cannot** be confirmed electronically by the Social Security Administration, the child will be conditionally enrolled in CHIP for 90 days pending verification of citizenship and identity.

1.4 OTHER SOURCES OF HEALTH INSURANCE COVERAGE

Applicants covered by other insurance at application and renewal are ineligible for CHIP. If a child in free or Low-Cost CHIP is discovered to have other insurance during their CE period, the MCO is required to report the information to the CAO. During the CE period CHIP is the payor of last resort. The child will remain eligible and enrolled in CHIP until their next redetermination. At redetermination, if the enrollee has other health insurance they will be disenrolled. Full-Cost enrollees will be terminated at the end of the month in which the other insurance is discovered.

CHAPTER 2: ENROLLMENT GUIDELINES

2.1 GENERAL REQUIREMENTS

Children eligible for free CHIP will immediately be enrolled in MCO coverage. Children eligible for Low-Cost or Full-Cost CHIP will become enrolled in MCO coverage once an initial premium payment is received by the MCO. The MCO will send households premium invoices with the amount and the due date. If the initial premium payment is not received by the MCO due date the child's eligibility will be denied. The department will send notice to inform the household of ineligibility.

MCOs are prohibited from excluding an applicant from enrollment based upon:

- A pre-existing condition.
- Citizenship or nationality, to the extent that a child is a U.S. citizen, U.S. national, or qualified non-citizen.
- Discrimination against individuals on the basis of race; color; national origin; disability; or sex which includes sex characteristics, including intersex traits; pregnancy or related conditions; sexual orientation; gender identity; and sex stereotypes; and will not use any policy or practice that has the effect of discriminating on the basis of race; color; national origin; disability; or sex which includes discrimination on the basis of sex characteristics, including intersex traits; pregnancy or related conditions; sexual orientation; gender identity; and sex stereotypes.

2.2 ENROLLMENT BEGIN DATES

Enrollment automatically begins on the first day of the month following the month eligibility is determined for Free CHIP.

In no case shall the effective date of coverage be delayed beyond the first day of the second calendar month following the month in which a determination of eligibility is made.

Enrollment begin dates are determined based on the eligibility determination completed by the Department. Timing of the collection of the initial premium payment for Low-Cost and Full-Cost CHIP does not change the enrollment begin date.

2.3 INFORMATION REQUIREMENTS AT ENROLLMENT

The MCO must provide the following information to all enrollees:

- Information about the enrollees right to disenroll.
- The basic features of managed care.
- The service areas covered by the MCO.
- Covered benefits.
- The provider directory and formulary information.
- Any cost-sharing requirements.
- Network adequacy standards.
- MCO responsibility for coordination of care; and
- To the extent available, quality and performance indicators for the MCO.

2.1 Primary Care Provider (PCP) SELECTION

Within 10 calendar days of the enrollment date, the MCO must provide the adult with the opportunity to select a PCP for the child. If the adult makes no selection, the MCO will assign a PCP on the child's behalf. In making an assignment, the MCO will consider such things as the age of the child, any special health condition(s) (if known), and travel time and distance to the PCP.

2.1 CHILDREN WITH SPECIAL NEEDS

MCOs will review bills and claims management information to identify enrollees with special needs. An enrollee with special needs is evaluated for the Medical Assistance PH95 program.

MA provides extensive medical and mental health coverage for enrollees with special needs that may not be available or may be limited through CHIP.

An enrollee who has a documented illness or disability may be determined eligible for PH95 without counting parental income; only the income of the child is counted.

CHAPTER 3: COST SHARING: PREMIUMS AND COPAYS

3.1 GENERAL REQUIREMENTS

A family will be required to pay premiums, copays and cost-sharing if the household income exceeds 208% of the FPL. Copays and cost-sharing are based on a sliding scale according to the low or Full-Cost program they are enrolled in. An initial premium payment is required to effectuate enrollment in MCO coverage at application and renewal. The MCO has the sole responsibility for collecting premium payments.

Copayments are limited to physical health services and do not include routine preventative and diagnostic dental services or vision services. Copayments will be due at the point of service. See Chapter 3.7, the Copayments and Premiums Chart.

3.2 NON-PAYMENT OF PREMIUMS

Failure to pay the initial premium payment will result in the denial of CHIP eligibility at application and renewal.

For Full-Cost CHIP, failure to pay premiums during the 12-month eligibility period will result in the termination of CHIP benefits.

It is prohibited for an MCO to terminate an enrollee from Low-Cost CHIP during the 12-

month eligibility period for failure to pay premiums.

It is prohibited for an MCO to prevent enrollment based on past due premiums from a prior enrollment period.

3.3 GRACE PERIOD

The MCO will give a 30-day grace period to a Full-Cost CHIP family if they fail to pay the required monthly premium by the due date during the enrollment period. The MCO will send a notice within seven days of the missed premium payment to remind the family premium payment must be paid or coverage will be terminated. Termination of coverage will be effective on the last day of the month in which the last payment was received, and all claims will be reversed. Once the 30-day grace period has passed, the MCO will report nonpayment to the Department so enrollment can be terminated. A notice from the department will be sent to the household when the termination is completed.

If a Full-Cost CHIP enrollee is terminated for failure to pay the premium payment, the family will need to reapply.

3.4 MAXIMUM OUT-OF-POCKET COST SHARING

Out-of-pocket cost sharing is limited to five percent of a household's annual countable income. The eligibility notice received from the Department will state the amount of maximum out-of-pocket cost sharing.

In rare circumstances, a family's income, combined with very high utilization of non-preventive services, could result in exceeding the five percent out-of-pocket limit.

MCOs will:

- Provide instructions to the family regarding tracking cost sharing.
- Provide instructions regarding what to do when the family's cost sharing limit has been exceeded (send copies of the receipts to the state for calculation).
- Work with the Department to verify that cost sharing maximums have been met.
- Discontinue collection of any premiums and other cost sharing and send the family a new insurance card if the cost sharing limit has been reached and there are more than 90 days remaining prior to the renewal due date.

Once the limit has been reached, a family can apply to the state for a rebate of any cost sharing paid in excess of the limit. Upon verification that the family exceeded the five percent limit, the state will issue a letter for each enrollee to present to providers. This letter explains that the household is exempt from cost sharing until the next redetermination (the redetermination date will be included in the letter to the household).

The MCO will also receive the letter to exempt the household from premium payments for the enrollee(s) until the next enrollment period begins.

3.5 SPECIAL CIRCUMSTANCES

American Indian and Alaska Native Cost Sharing

Under existing federal mandate, cost sharing charges for enrollees who are American Indians or Alaska Natives (AI/AN) is prohibited. States may not impose premiums, deductibles, coinsurance, copayments or any other cost sharing on this population. This rule only applies to enrollees who are eligible for subsidized CHIP coverage. Enrollees who pay Full-Cost for CHIP coverage do not receive federal participation funds and are therefore exempt from the rule. Enrollees may self-attest to AI/AN tribe or group membership.

3.6 COPAYMENTS AND DEDUCTIBLES

- No premiums or copayments may be collected from enrollees in free CHIP.
- Enrollees in Low-Cost CHIP are responsible for co-payments, except for specific services described below. Households that reach the out-of-pocket cost sharing maximum are exempt as described in section 3.4. Copayments for Low-Cost enrollees are:
 - \$5 Doctors Visits (see exceptions below)
 - \$10 Specialists Visits
 - \$25 Emergency Department Visit (waived if admitted)
 - \$6 Generic Prescriptions
 - \$9 Brand Name Prescriptions

Exceptions: Per 42 CFR §457.520, MCOs may not impose copayments, coinsurance, deductibles, or similar fees on well-baby and well-child services in the managed care delivery setting. Well-baby and well-child services include:

- All healthy newborn physician visits, including routine screening, whether provided on an inpatient or outpatient basis.
- Routine physical examinations as recommended by the American Academy of Pediatrics, “Guidelines for Health Supervision III” as described in “Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents”;
- Laboratory tests associated with the well-baby and well-child routine physical examinations.
- Immunizations and related office visits as recommended by the American Academy of Pediatrics (AAP), the American Academy of Family

Physicians (AAFP), the American College of Obstetricians and Gynecologists (ACOG), in addition to Advisory Committee on Immunization Practices (ACIP)

- Routine preventive and diagnostic dental services (such as oral examinations, prophylaxis and topical fluoride applications, sealants, and x-rays) as described by the American Academy of Pediatric Dentistry

Full-Cost CHIP is provided to eligible children whose household income is at or above 314% of the FPL. No state or federal dollars are provided for this coverage.

Copayments for Full-Cost enrollees are:

- \$15 Doctors Visits (see exceptions below)
- \$25 Specialists Visits
- \$50 Emergency Department Visit (waived if admitted)
- \$10 Generic Prescriptions
- \$18 Brand Name Prescriptions

3.7 PREMIUMS AND COPAYMENTS CHART

Category	Income	Premium	Copayments
FREE	Less than or	None	None
LOW-COST	Greater than 208% up to 262%	25% of the state negotiated rate per month, per child	\$5 primary care physician visit (exclude well baby/well child visits) \$10 specialist visit \$25 emergency room visit (waived if admitted) \$6 generic prescription \$9 brand name prescription
	Greater than 262% up to 288%	35% of the state negotiated rate per month, per child	\$5 primary care physician visit (exclude well baby/well child visits) \$10 specialist visit \$25 emergency room visit (waived if admitted) \$6 generic prescription \$9 brand name prescription
	Greater than 288% up to 314%	40% of the state negotiated rate per month, per child	\$5 primary care physician visit (exclude well baby/well child visits) \$10 specialist visit \$25 emergency room visit (waived if admitted) \$6 generic prescription \$9 brand name prescription
FULL-COST	Over 314%	100% of the state negotiated rate per month, per child	\$15 primary care physician visit \$25 specialist visit \$50 emergency room visit (waived if admitted) \$10 generic prescription \$18 brand name prescription

PART 2: BENEFITS

CHAPTER 4: CHIP BENEFIT PACKAGE

4.1 GENERAL REQUIREMENTS

MCOs are required to provide all benefits described below. The Department reserves the right to change the benefit package as required by state or federal law and/or as the Department deems appropriate to meet the needs of the CHIP population. The implementation of such changes by the MCOs will be on the date determined by the Department. If changes to the benefit package occur, the Department will conduct an actuarial analysis to determine if there is a need for a premium change based upon data provided by the MCOs.

MCOs may establish and maintain a referral process to effectively manage the care of the enrollees, but that process may not restrict access to medically necessary services. Enrollees are permitted to use providers of their choice to the extent that those providers are (except in emergencies) in the MCOs' provider networks.

Providers are prohibited from charging any copayments or requiring after-the-fact reimbursement for any in-plan service except as permitted by law and as outlined in this benefits handbook. A provider may bill the difference between the covered charges and the total cost of covered services where the family opts for a selection that exceeds the dollar limit or allowances established for a particular service, e.g., eyeglasses, durable medical equipment, and hearing aids.

4.2 BENEFIT PACKAGE

Section 2304-A (e) (9) of the Act of May 17, 1921, known as The Insurance Company Law of 1921, P.L. 682, No.284 (40 P.S. §991.2304-A) requires each MCO to provide the following benefit package with the scope and duration determined by the Department:

- Preventive care/well-child visits.
- Diagnosis and treatment of illness or injury, including all medically necessary covered services related to the diagnosis and treatment of sickness or injury and other conditions provided on an ambulatory basis such as laboratory tests, x-rays, wound dressing, and casting to immobilize fractures.
- Injections and medications.
- Inpatient hospitalization.
- Outpatient hospital services.
- Emergency, accident, and emergency medical care.
- Emergency, preventive, and routine dental care.
- Emergency, preventive, and routine vision care.
- Emergency, preventive, and routine hearing care.
- Prescription drugs.

:

a. PRIMARY AND PREVENTIVE CARE SERVICES:

This includes well-child care in accordance with the schedule established by the American Academy of Pediatrics and the services related to those visits, including, but not limited to:

- Immunizations.,
- Health education (to include all types of tobacco use prevention and cessation).
- Tuberculosis testing, and developmental screening in accordance with the routine schedule of well child visits.
- A comprehensive physical examination, including x- rays, if necessary, for any child exhibiting symptoms of possible child abuse.
- Allergy diagnosis and treatment.
- Outpatient physical health services relating to ambulatory surgery.
- Outpatient hospitalization.
- Specialist office visits and consults.
- Follow-up appointments and sick visits.

The primary and preventive services are based on recommendations from organizations such as the American Academy of Pediatrics; the American College of Physicians; the U.S. Preventive Services Task Force (USPSTF), all items or services with a rate of A or B in the current recommendations; the American Cancer Society; and the Health Resources and Services Administration (HRSA).

Examples of covered "USPSTF A" recommendations are folic acid supplementation, chlamydial infection screening for non-pregnant women, and tobacco use counseling and interventions.

Examples of "USPSTF B" recommendations are dental cavities prevention for preschool children, healthy diet counseling, oral fluoride supplementation/rinses and vitamins, BRCA risk assessment and genetic counseling and testing, prescribed Vitamin D, prescribed iron supplementation, mineral supplements, chlamydial infection screening for pregnant women, and sexually transmitted infections counseling.

Examples of covered HRSA required benefits include all Food and Drug Administration approved contraceptive methods, sterilization procedures, breast feeding equipment, and patient education and counseling for all women with reproductive capacity. All services required by HRSA are covered. Preventive services are provided at no cost to the enrollee.

b. PEDIATRIC PREVENTIVE CARE INCLUDES:

- A comprehensive health and developmental history, including health

education, nutrition, tobacco use, and developmental assessment.

- An unclothed physical exam.
- Laboratory tests.
- Vision testing.
- Hearing testing.
- Newborn hearing screens.
- Tuberculosis testing.
- Immunizations (see Immunizations Chapter 4.2 c.14 in benefits package).
- Dental screening (oral exam by PCP as part of comprehensive examination required before age three).
- Fluoride varnish as recommended by USPSTF
- Blood lead levels screening of all children at ages one and two years and for all children ages three through six without a confirmed prior lead blood test consistent with current DOH and Pennsylvania MA program requirements.
- Obesity prevention, including office visits to review results of the mandatory Growth Screening Assessment provided by the child's school.
- All other medically necessary screening services.

c. MEDICAL SERVICES:

1. Physician Office Services:

Includes visits for the examination, diagnosis and treatment of an illness or injury at the enrollee's PCP's office, during and after regular office hours, emergency visits, house-calls in the physician's service area, and telehealth services. Coverage includes medical care at a Retail Health Clinic staffed by a Certified Registered Nurse Practitioner (CRNP) supported by a local physician who is on call during clinic hours or at an Urgent Care Center.

2. Specialist Physician Services:

Includes medical care in any generally accepted medical specialty or subspecialty. Covers office visits, diagnostic testing, and treatment if medically necessary and the enrollee has an illness or condition outside the scope of practice of the enrollee's PCP. Services must be within the scope of practice of the specialist. A PCP referral is not required to see a specialist. However, some services may require prior authorization

3. Chiropractic Care:

Includes manipulation of the spine or other body parts as treatment of diagnosed musculoskeletal conditions for which treatment is expected to restore a level of functioning due to this condition. Consultations and x-rays are included. Prior authorization may be required. Limit of 20 visits per year applies.

4. Dental Care (Emergency, Preventive, and Routine):

Includes medically necessary diagnostic, restorative, endodontic, periodontic,

prosthodontic, oral surgery, orthodontic, and adjunctive services as identified in the CHIP dental benefit package. Does not include cosmetic dental services. See Chapter 5.

5. Disposable Medical Supplies:

Includes ostomy supplies and urological supplies deemed medically necessary. No limits apply.

6. Diagnostic, Laboratory, and X-ray Services:

Includes all laboratory and radiology services, EKGs, EEGs, allergy testing, and other diagnostic services and materials related to the diagnosis and treatment of sickness and injury provided on an inpatient or outpatient basis when ordered by a participating provider or referred specialist, and/or facility provider. Some services may require prior authorization.

7. Diabetic Treatment, Equipment, and Supplies:

Includes blood glucose monitors, monitor supplies, insulin, injection aids, syringes, insulin infusion devices, pharmacological agents for controlling blood sugar, orthotics, and outpatient self- management training and education, including information on proper diets (see section 634 of The Insurance Company Law of 1921 (40 P.S. §764e)).

8. Durable Medical Equipment:

Includes rental or the purchase, delivery and installation of durable medical equipment which is designed to serve a medical purpose for a condition due to an illness or injury, is intended for repeated use, is not disposable, and is appropriate for home or school use. Replacement or repair is covered for normal wear and tear when medically necessary due to the normal growth of the child. Coverage of DME may require prior authorization.

9. Emergency Medical and Accident Services (including emergency transportation):

Services are provided in cases of a sudden onset of a medical condition that is accompanied by rapidly progressing symptoms such that the enrollee would suffer serious impairment or loss of function of a body part or organ, or the enrollee's life or the life of an enrollee's fetus would be in danger. Transportation by land, air, or water ambulance is covered when medically necessary.

10. Gender Affirming Services:

Federal Final Rule "Nondiscrimination in Health Programs and Activities" prohibits discrimination on the basis of sex in health-related insurance and other health-related coverage. Coverage related to gender affirming services that otherwise fall within the beneficiary's scope of covered CHIP benefits (e.g. physician's services, inpatient and outpatient hospital services, surgical services, prescribed drugs, therapies, etc.) will be compensable under the CHIP when deemed medically necessary. Medical necessity is to be determined

utilizing the World Professional Association for Transgender Health (www.WPATH.org) Standard of Care guidelines and any successor WPATH guidelines. Sex specific health care cannot be denied or limited because the person seeking services identifies as belonging to another gender.

For example, a provider may not deny an individual gynecological services such as pap smears based on identification as a transgender male.

11. Hearing care:

Hearing aids and devices and the fitting and adjustment of such devices are covered when determined to be medically necessary. Payment is limited to one routine hearing examination and one audiometric examination per calendar year. This includes the cost of examinations and one hearing aid or device per ear every two calendar years.

12. Home Health Care:

Covered for an enrollee who is homebound. A child is considered homebound if the child's medical condition prevents the child from leaving home without a great deal of effort. This includes medically necessary benefits such as nursing services; home health aide services; physical, speech and occupational therapies; medical and surgical supplies; oxygen and its administration; home medical equipment; and home infusion therapy, except for blood and blood products. Private duty nursing and custodial services are not covered. This benefit is offered with no copayments and no visit limitations.

13. Hospice Care:

Covered services include palliative and supportive services provided through a hospice program by a participating hospice provider for a terminally ill child. Services require prior authorization and physician certification that the child has a terminal illness. Respite care is also included. A child receiving hospice care may still receive care for other illnesses or conditions. Hospice care benefits are provided until death or discharge from hospice.

14. Immunizations:

Coverage will be provided for pediatric immunizations (except those required for employment or travel), including immunizing agents, which conform to the standards of the American Academy of Pediatrics (AAP), the American Academy of Family Physicians (AAFP), and the American College of Obstetricians and Gynecologists (ACOG). Pediatric immunization schedules may be found by accessing the following link: <https://www.aap.org/en/patient-care/immunizations/>.

Influenza vaccines can be administered by a participating pharmacy for enrollees starting at the age of five years old, with parental consent, according to Act 77 of 2024, known as the Pharmacy Audit Integrity and Transparency Act (P.L. 852, No. 77)

15. Injections and Medications:

Includes all injections and medications provided at the time of the office visit or therapy and outpatient surgery performed in the office, a hospital, or freestanding ambulatory service center. Includes immunizations as described in this handbook and anesthesia services when performed in conjunction with covered services, including emergency services.

16. Inpatient Hospitalization:

Includes pre-admission testing, semi-private room and board accommodations; private accommodations when medically necessary; general nursing care; use of intensive or special care facilities when medically necessary; diagnostic and therapeutic radiological procedures; use of operating room and related facilities; drugs, medications, and biologicals; laboratory testing and services; blood bank services; pre-operative and post-operative care; special tests when medically necessary; therapy services, oxygen, anesthesia, and anesthesia services; and any other services normally provided relating to inpatient hospitalization and skilled nursing inpatient care. No day limits apply. Prior authorization may be required for non-emergency services.

Inpatient rehabilitation stays are covered when an enrollee requires skilled rehabilitation on a daily basis. Requires a physician's prescription. No day limits apply.

17. Medical Foods:

Includes medical foods and prescribed nutritional formulas used to treat Phenylketonuria (PKU) and related disorders given orally or by tube feeding. (See Act 191 of 1996 known as the Medical Foods Insurance Coverage Act (P.L. 1492, No.191). No limits.

18. Organ Transplants:

Includes transplants that are medically necessary and not considered to be experimental or investigative for a recipient who is an enrollee and services related to inpatient care related to the transplant. This benefit also includes immunosuppressants.

19. Orthotic Devices:

Includes the purchase, fitting, necessary adjustment, repairs, and replacement of a rigid or semi-rigid device designed to support, align, or correct bone and muscle injuries or deformities. Replacements are covered only when the replacement is deemed medically necessary and appropriate and due to the normal growth of the child.

20. Outpatient Habilitation Services:

Health care services that help a person keep, learn, or improve skills and

function for daily living. Examples include therapy for a child who isn't walking or talking at the expected age. These services may include physical and occupational therapy, speech-language pathology, and other services for people with disabilities in a variety of outpatient settings. Covered services are limited to 30 visits per calendar year for physical therapy, 30 visits per calendar year for occupational therapy, and 30 visits per calendar year for speech therapy, for a combined visit limit of 90 days per calendar year.

21. Outpatient Hospital Services:

Includes medical services, nursing, counseling or therapeutic treatment, or supplies received from an approved health care facility while not an inpatient. Outpatient physical health services related to ambulatory surgery, outpatient hospitalization, specialist office visits, follow up visits or sick visits with a PCP are not limited.

22. Outpatient Medical Services:

Includes chemotherapy, dialysis, radiation treatments, and respiratory therapy when the enrollee has a documented diagnosis which necessitates the prescribed therapy. There is no limit on the number of visits.

23. Outpatient Rehabilitative Therapy Services:

Speech, occupational, and physical therapy to regain lost skills. Enrollees must have a documented diagnosis that indicates the prescribed therapy is medically necessary. Limited to sixty visits per calendar year per each type of therapy.

24. Prosthetics Devices:

Includes the purchase of prosthetic devices and supplies required as a result of injury or illness to replace all or part of an absent body part or to restore function to permanently malfunctioning body organs. The benefit extends to the purchase, fitting, and necessary adjustment of prosthetic devices. Replacements are covered only when the replacement is deemed medically necessary and appropriate due to the normal growth of the child.

25. Qualifying Clinical Trials:

Benefits are provided for routine patient costs associated with participation by qualified individuals in an approved qualifying clinical trial (42 U.S. Code § 300gg-8). Routine patient costs include all items and services consistent with the coverage provided under the plan that is typically covered for a qualified individual who is not enrolled in a clinical trial. To ensure coverage and appropriate claims payment, the enrollee must contact their MCO before beginning the trial.

Benefits are payable if the qualifying clinical trial is conducted by a participating professional provider and conducted in a participating facility. If there is no comparable qualifying clinical trial being performed by a participating

professional provide, and in a participating facility, then the MCO will consider the services by a non-participating provider, participating in the clinical trial, as covered if the clinical trial is deemed a qualifying clinical trial.

Qualifying clinical trials can be in phase I, II, III, or IV of the clinical trial process. Qualifying clinical trials are conducted in relation to the prevention, detection, or treatment of cancer or other life-threatening disease or condition and are:

- Federally approved or funded (which may include funding through in-kind contributions) by one or more of the following:
 - The National Institutes of Health (NIH).
 - The Centers for Disease Control and Prevention (CDC).
 - The Agency for Healthcare research and Quality (AHRQ).
 - The Centers for Medicare and Medicaid Services (CMS).
 - A cooperative group or center of any of the entities above or;
 - The Department of Defense (DOD),
 - The Department of Veterans Affairs (VA),
 - The Department of Energy (DOE).
- Conducted by a Department that has been reviewed and approved through a system of peer review that the Secretary determines to be:
 - (A) comparable to the system of peer review of studies and investigations used by the National Institutes of Health, and
 - (B) assures unbiased review of the highest scientific standards by qualified individuals who have no interest in the outcome of the review.
- Conducted under an investigation into a new drug application reviewed by the Federal Drug Administration.
- A drug trial that meets the federal requirements of exemption for an investigational drug application in accordance with 21 CFR 312.2(b).

26. Skilled Nursing Facility Services:

Medically necessary skilled nursing and related services are covered on an inpatient basis in semi-private accommodations for patients requiring skilled nursing services but not requiring confinement in a hospital. No day limits apply.

27. Urgent Care Services:

Covers care at walk-in medical facilities for conditions that do not require emergency care but that need to be treated within 24 hours.

28. Vision Care:

Includes:

- Cost of exams, corrective lenses, frames, or contacts in lieu of glasses or when medically necessary. Limited to one exam every 12 months unless an additional exam is medically necessary.
- Dilation if professionally indicated.
- One pair of prescription eyeglass lenses and one frame, unless a second frame is medically necessary, or contacts every calendar year.
- Eyeglass lenses may be plastic or glass, single vision, bifocal or trifocal, lenticular lens powers and/or oversize lenses, fashion and gradient tinting, oversized glass-grey #3 prescription sunglass lenses, or polycarbonate prescription lenses with scratch resistant coating.
- There may be copayments for optional lens types and treatments.
- The replacement of lost, damaged, or stolen corrective lenses, frames, and medically necessary contacts will occur once per year (one original and one replacement).
- A referral from a PCP is not required to see a vision provider.
- There is no copayment for routine eye examinations, covered standard eyeglass lenses or contact lenses.
- If any vision service is provided under the medical benefit for a diagnosis of cataracts, keratoconus, or aphakia, a copay may apply.

Coverage includes one comprehensive low vision evaluation every five (5) years, with a maximum **charge** of \$300; maximum low vision aid allowance of \$600 with a lifetime maximum of \$1,200 for items such as high-power spectacles, magnifiers and telescopes, and follow up care - four visits in any five-year period, with a maximum **charge** of \$100 per visit. Providers will obtain the necessary prior authorization for these services.

d. MENTAL HEALTH SERVICES:

1. Autism Related Services:

Covers medically necessary services included on an autism treatment plan developed by a physician or licensed psychologist. Coverage includes evaluations and tests performed to diagnose autism disorder, services of a psychologist/psychiatrist, rehabilitative care including applied behavioral analysis, speech/language, occupational, and physical therapy, and prescription and over-the-counter drug coverage. Enrollees are eligible to use the expedited appeals process defined in section 635.2 of The Insurance Company Law of 1921 for autism related complaints and grievances.

2. Inpatient Mental Health Services:

Includes services furnished in a state-operated mental hospital, residential facility, or other 24-hour therapeutically structured services. Covers medical

care including psychiatric visits and consultations, nursing care, group and individual counseling, and therapeutic services concurrent care and services normally provided relating to inpatient hospitalization. Enrollees may self-refer. There are no day limits. No copay applies.

3. Outpatient Mental Health Services:

Includes services furnished at a state-operated mental hospital and community-based services. Includes partial hospitalization programs and intensive outpatient programs. Covered services include psychological testing, visits with outpatient mental health providers, individual, group, and family counseling, therapeutic services, targeted mental health case management, and medication management. There are no limits for mental health outpatient visits per benefit year. No copay applies.

4. Inpatient Substance Use Disorder Services:

Services provided in a hospital or an inpatient non-hospital facility that meets the requirements established by the Department of Health and is licensed as an alcohol/drug addiction treatment program. Covers detoxification stays, services of healthcare providers, , psychologists, psychiatrists, counselors, trained staff, laboratory and psychological/psychiatric testing, individual and family therapy and interventions, equipment use, medication management and services normally provided to inpatients. No day limits apply. Tobacco use cessation is not covered. No copay applies.

5. Outpatient Substance Use Disorder Services:

Services provided in a facility licensed by the Department of Health as an alcohol/drug treatment program. Includes treatment in a partial hospitalization program and intensive outpatient therapy. Covers services of physicians, psychologists, psychiatrists, counselors, trained staff, laboratory and psychological/psychiatric testing, individual and family therapy, and medication management. Tobacco use cessation is not covered. There are no limits for substance use services visits per benefit year. No copay applies.

e. SURGICAL SERVICES:

1. Surgical Services:

Surgery performed for the treatment of disease or injury is covered on an inpatient or outpatient basis. Cosmetic surgery is intended solely to improve appearance, but not to restore bodily function or to correct deformity resulting from disease, trauma, congenital or developmental anomalies or previous therapeutic processes (excluding surgery resulting from an accident) and is not covered.

Includes anesthesia administered by or under the supervision of a specialist other than the surgeon, assistant surgeon, or other attending specialist. Includes

general anesthesia and hospitalization and other expenses normally incurred with administration of general anesthesia.

Consultations for a second opinion to determine the medical necessity of elective surgery or if an enrollee's family desires another opinion about medical treatment, no referral is needed.

2. Mastectomy and Breast Reconstruction:

Benefits are provided for a mastectomy performed on an inpatient or outpatient basis. Benefits include all stages of reconstruction on the breast on which the mastectomy has been performed, surgery to reestablish symmetry or alleviate functional impairment, including, but not limited to, augmentation, mammoplasty, reduction mammoplasty, mastopexy, and surgery on the other breast to produce a symmetrical appearance. Covers surgery for initial and subsequent insertion or removal of prosthetic devices to replace or remove the breast or portions of the breast, and treatment of physical complications of all stages of mastectomy, including lymphedema. Coverage is also provided for one home health care visit, as determined by the enrollee's physician, received within forty-eight (48) hours after discharge.

3. Oral surgery:

Oral surgery may be performed at an inpatient or outpatient facility depending on the nature of the surgery and medical necessity. Examples of covered services include removal of partially or fully impacted third molars (wisdom teeth), non-dental treatments of the mouth relating to medically diagnosed congenital defects, birth abnormalities, surgical removal of tumors, cysts and infections, surgical correction of dislocated or completely degenerated temporomandibular joints, and baby bottle syndrome.

4. Reconstructive Surgery:

Reconstructive surgery will only be covered when required to restore function following accidental injury, result of a birth defect, infection, or malignant disease; in connection with congenital disease or anomaly through the age of 18; or in connection with the treatment of malignant tumors or other destructive pathology which causes functional impairment; or breast reconstruction following a mastectomy.

f. WOMEN'S HEALTH SERVICES:

Women's Health Services covers those services described under the Women's Preventive Services provision of the Affordable Care Act. There are no copayments for preventive services. Covered services include, but are not limited to:

1. Routine Gynecological Services:

Includes one routine annual gynecological examination, including a pelvic examination and clinical breast examination and one routine Papanicolaou

smear per year for all female enrollees. Also includes counseling, education, and related services to prevent and address the consequences of at-risk behaviors related to sexually transmitted diseases (STDs) and pregnancy. Each enrollee may utilize her primary care physician, or she may directly choose any participating professional provider delivering gynecological services without referral.

2. Mammograms:

Screening and diagnostic mammograms are covered when performed by a qualified mammography service provider who is certified by the appropriate state or federal agency in accordance with the Mammography Quality Assurance Act of 1992. There are no copayments for this service.

3. Breastfeeding:

Comprehensive support and counseling from trained providers, access to breastfeeding supplies, including coverage for renting of hospital-grade breast pumps under DME and medical necessity review, and coverage for lactation support and counseling provided during postpartum hospitalization, mother's option visits, and obstetrician or pediatrician visits for pregnant or nursing women with no cost sharing to the enrollee.

4. Osteoporosis Screening:

Coverage is provided for bone mineral density testing using a U. S. Food and Drug Administration approved method. This test determines the amount of mineral in a specific area of the bone. It is used to measure bone strength which is the aggregate of bone density and bone quality. Bone quality refers to the architecture, turnover, and mineralization of bone. The test must be prescribed by a professional provider legally authorized to prescribe such items under the law.

5. Obstetrical Services:

Includes prenatal, intrapartum and postpartum care, including care related to complications of pregnancy and childbirth. A referral is not required when maternity care is provided by a network obstetrician or gynecologist, certified nurse-midwife, or a certified registered nurse practitioner (CRNP). Services provided by a participating hospital or birthing center are covered.

Mothers and infants can remain in the hospital for 48 hours after a normal vaginal delivery or 96 hours after a Cesarean delivery. A shorter stay may be covered if the attending provider (physician, nurse mid-wife, or physician assistant), in consultation with the mother, discharges the mother and infant earlier.

6. Newborn Care:

Includes the provision of benefits for a newborn child of an enrollee for a period of thirty-one (31) days following birth. Includes routine nursery care, prematurity

services, preventive/well-child health care services, newborn hearing screens, and coverage for injury or sickness including the necessary care and treatment of medically diagnosed congenital defects and birth abnormalities.

7. Maternity Home Health Care Visit:

Enrollees are covered for at least one (1) maternity home health care visit provided at their home when an enrollee is released prior to 48 hours of inpatient care following a normal vaginal delivery or 96 hours of inpatient care following a Cesarean delivery, or in the case of a newborn, in consultation with the mother of the newborn's authorized representative. Home health care visits include but are not limited to parent education, assistance, and training in breast feeding and bottle feeding, infant screening and clinical tests, and the performance of any necessary maternal and neonatal physical assessments. A licensed health care provider whose scope of practice includes postpartum care must make the home health care visit. At the mother's sole discretion, the home health care visit may occur at the facility of the selected maternity care provider. Home health care visits following an inpatient stay for maternity services are not subject to copayments, deductibles, or coinsurance.

8. Family Planning Services:

Includes, but is not limited to, birth control pills, injectable contraceptives, transdermals (patches), and insertions and implantation of contraceptive devices approved by the Federal Food and Drug Administration, voluntary sterilization, and counseling. Abortifacient drugs are not covered. There are no copays when services are provided by a participating provider.

9. Abortions:

Includes only abortions that satisfy the requirements of 18 PA.C.S. § 3204- 3206 and 35 P.S. §§ 10101, 10103-10105. Covered abortions include those that meet the following criteria:

- A physician has certified the abortion is medically necessary to save the life of the mother.
- The abortion is performed to terminate a pregnancy resulting from an act of rape or incest reported within 72 hours from the date when the female first learned she was pregnant.

Elective abortions are not covered. Services rendered to treat illness or injury resulting from an elective abortion are covered. The MCO and its subcontractors will respect the conscience rights of individual providers and provider organizations and comply with Pennsylvania law prohibiting discrimination on the basis of the refusal or willingness to participate in certain abortion and sterilization-related activities as outlined in 43 P.S. §955.2 and 18 Pa. C.S.A. §3213(d).

g. PHARMACY SERVICES:

- 1. Prescription Drugs:** Includes any substance taken by mouth, injected into a muscle, the skin, a blood vessel, or a cavity of the body, or applied topically to treat or prevent a disease or condition, dispensed by order of a health care provider with applicable prescriptive authority. MCOs may use a closed or restrictive formulary provided the formulary meets the minimum clinical needs of enrollees. A mail order or designated pharmacy process can be used for maintenance prescriptions. Generic drugs will be automatically substituted for a brand-name drug whenever a generic formulation is available unless the physician indicates that the brand-name drug is medically necessary. Copays may apply.

When clinically appropriate drugs are requested by the enrollee, but are not covered by the health plan, the enrollee shall call the number on the back of the enrollee's Identification Card to obtain information for the process required to obtain the prescription drugs.

- 2. Over-the-Counter Drugs:**
Covered when the drug is a part of the formulary, the enrollee has a prescription for the drug, and a documented medical condition that indicates the drug is medically necessary. Copay may apply.
- 3. Preventive Medications:**
Select medications such as contraceptives, iron supplements, sodium fluoride, folic acid supplements, vitamins, aspirin, smoking deterrents, vitamin D supplements, tamoxifen, and raloxifene are considered preventive medications and are covered at no cost to the enrollee when filled at a participating pharmacy with a valid prescription. Enrollees need to call their MCO regarding questions on coverage.

h. EMERGENCY ROOM SERVICES

The definition of emergency services is defined by the Department and found in Section 2102 of The Insurance Company Law of 1921 (40 P.S. §991.2102). Emergency providers may initiate the necessary intervention to stabilize the condition of the patient without seeking or receiving prior authorization by the MCOs.

CHAPTER 5: CHIP DENTAL BENEFITS

GENERAL INFORMATION

All benefits are subject to the definitions, limitations, and exclusions given in this chapter and are payable only when the service is necessary for the prevention, diagnosis, care, or treatment of a covered condition and meet generally accepted dental protocols. The following is a list of services most commonly provided to covered individuals. It is not an all-inclusive list. Benefits for ADA codes not listed below will be provided, subject to exclusions and limitations shown in this benefit package. Some services may be subject to dental review. The dentist should submit a pre-determination/pre-certification request prior to the start of service.

There is no deductible if the enrollee uses an in-network provider. There is no annual limit for dental services or medically necessary orthodontic dental services. There are no deductibles, copayments or coinsurance for covered dental benefits. All exams, oral evaluations and treatments, such as fluorides and some images are combined under one limitation under the benefit package. Periodic oral exams (D0120), oral evaluations (D0145), and comprehensive oral exams (D0150, D0180) are combined and limited to one exam every 6 months from the date services were last rendered. There must be a 6-month separation between services even if the separation of services enters a new benefit year.

All services requiring more than one visit are payable once all visits are completed. All major prosthodontic services are combined under one replacement limitation under the benefits package. Benefits for prosthodontic services are combined and limited to one every 60 months. For example, if benefits for a partial denture are paid, this includes benefits to replace all missing teeth in the arch.

The periodicity scheduled used for the CHIP dental package is the American Academy of Pediatric Dentistry and the American Academy of Pediatrics.

BASIC SERVICES			
Diagnostic Services			
Code	Service	Limits	
D0120	Periodic oral evaluation – established patient	1 per 6 months	
D0140	Limited oral evaluation – problem focused	As medically necessary	
D0145	Oral evaluation for a patient under three years of age and counseling with primary caregiver	1 per 6 months	
D0150	Comprehensive oral evaluation – new or established patient	1 per 6 months	
D0160	Detailed and extensive	1 per 6 months, only eligible	

	oral evaluation – problem focused, by report	by report when not related to non-covered medical, dental or adjunctive dental services including Temporomandibular Joint Dysfunction	
D0170	Re-evaluation – limited, problem focused (established patient; not post-operative visit)	1 re-evaluation is eligible during a 30-day period	
D0180	Comprehensive periodontal evaluation – new or established patient	1 per 6 months	
D0210	Intraoral – comprehensive series of radiographic images	1 per 5 years	
D0220	Intraoral – periapical first radiographic image	1 per visit, 10 in any 12-month period unless additional film is medically necessary	
D0230	Intraoral – periapical each additional radiographic image	10 in any 12-month period	
D0240	Intraoral – occlusal radiographic image	By report as medically necessary	
D0270	Bitewing – single radiographic image	1 per 6 months	
D0272	Bitewing – two radiographic image	1 per 6 months	
D0274	Bitewing – four radiographic image	1 per 6 months	
D0277	Vertical bitewings – 7 to 8 radiographic images	1 per 6 months	
D0290			
D0330	Panoramic radiographic image	1 per 5 years	
D0340	2D cephalometric radiographic image – acquisition, measurement and analysis	By report demonstrating medical necessity	
D0350	2D oral/facial photographic image obtained intra-orally or	By report demonstrating medical necessity	

	extra-orally		
D0351			
D0391	Interpretation of diagnostic image by a practitioner not associated with capture of the image, including report	By report demonstrating medical necessity	
D0415	Collection of microorganism for culture and sensitivity	As medically necessary as a program exception	
D0422	Collection and preparation of genetic sample material for laboratory analysis and report	1 per lifetime	
D0423	Genetic test for susceptibility to disease – specimen analysis	1 per lifetime	
D0460	Pulp vitality test	1 per 30 day period	
D0470	D0470	Diagnostic casts	
Services Not Covered			
D0320	Temporomandibular joint arthrogram, including injection		
D0321	Other temporomandibular joint radiographic images, by report		
D0322	Tomographic survey		
D0416	Viral Culture		
D0417	Collection and preparation of saliva for laboratory diagnostic testing		
D0418	Analysis of saliva sample		
D0425	Caries susceptibility tests		

D0431	Adjunctive pre-diagnostic test that aids in detection of mucosal abnormalities including premalignant and malignant lesions, not to include cytology or biopsy procedures		
D0472 D0473, D0474	Accession Of Tissue		
D0475	Decalcification procedure		
D0476	Special stains for microorganisms		
D0477	Special stains, not for microorganisms		
D0478	Immunohistochemical stains		
D0479	Tissue in-situ hybridization, including interpretation		
D0480	Accession of exfoliative cytologic smears		
D0481	Electron microscopy		
D0482 D0483	Immunofluorescence		
D0484	Consultation on slides prepared elsewhere		
D0485	Consultation including preparation of slides from biopsy material supplied by referring source		
D0486	Laboratory accession of transepithelial cytologic sample		
D0502	Other oral pathology procedures, by report		
D9950	Occlusion analysis – mounted case		
D0210, D0220, D0230, D0240, D0250, D0270, D0272, D0273, D0274, D0277,	Diagnostic dental radiographs performed in conjunction with temporomandibular joint dysfunction are not		

D0330	covered		
Preventive Services			
D1110	Prophylaxis - adult	1 per 6 months	
D1120	Prophylaxis – child	1 per 6 months	
D1206	Topical application of fluoride varnish	2 per year	
D1208	Topical application of fluoride – excluding varnish	2 per year	
D1351	Sealant – per tooth	1 per 3 years	
D1352	Preventive resin restorations in a moderate to high caries risk patient – permanent tooth	1 per 3 years	
D1353	Sealant repair – per tooth	1 per 3 years	
D1354	Application of caries arresting medicament – per tooth	1 per 3 years	
D1510	Space maintainer – fixed, unilateral – per quadrant	Limited to children under age 19	
D1516	Space maintainer – fixed – bilateral, maxillary	Limited to children under age 19	
D1517	Space maintainer – fixed – bilateral, mandibular	Limited to children under age 19	
D1520	Space maintainer – removable, unilateral – per quadrant	Limited to children under age 19	
D1526	Space maintainer – removable – bilateral, maxillary	Limited to children under age 19	
D1527	Space maintainer – removable – bilateral, mandibular	Limited to children under age 19	
D1551	D1516	Space maintainer – fixed – bilateral, maxillary	
D1552	Re-cementation or re-bond bilateral space maintainer – mandibular	Limited to children under age 19	
D1553	Re-cementation or re-bond bilateral space maintainer – per quadrant	Limited to children under age 19	
D1556	Removal of fixed	Limited to children under	

	unilateral space maintainer – per quadrant	age 19	
D1557	Removal of fixed unilateral space maintainer – maxillary	Limited to children under age 19	
D1558	Removal of fixed unilateral space maintainer – mandibular	Limited to children under age 19	
D9110	Palliative treatment of dental pain – minor procedure	By report, as medically necessary	
Services Not Covered			
D1310	Nutritional counseling for control of dental disease		
D1320	Tobacco counseling for the control and prevention of oral disease		
D1330	Oral hygiene instructions		
D5986	Fluoride gel carrier		
D5991	Vesiculobullous disease medicament carrier		

INTERMEDIATE SERVICES		
Minor Restorative Services: Eligible amalgam and composite fillings are limited to once in a 24 month period.		
Code	Service	Limits
D2140	Amalgam - one surface-primary or permanent	
D2150	Amalgam – two surfaces, primary or permanent	
D2160	Amalgam – three surfaces, primary or permanent	
D2161	Amalgam – four surfaces, primary or permanent	
D2330	Resin-based composite – one surface, anterior	
D2331	Resin-based composite – two surfaces, anterior	
D2332	Resin-based composite – three surfaces, anterior	
D2335	Resin-based composite – four or more surfaces (anterior)	

D2910	Re-cement or re-bond inlay, onlay veneer or partial coverage restoration	
D2915	Re-cement or re-bond indirectly fabricated or prefabricated post and core	
D2920	Re-cement or re-bond crown	
D2929	Prefabricated porcelain/ceramic crown - primary tooth	Under age 15 where no permanent successor exists
D2930	Prefabricated stainless-steel crown – primary tooth	Under age 15 – 1 per 5 years
D2931	Prefabricated stainless-steel crown- permanent tooth	Under age 15 – 1 per 5 years
D2940	Protective restoration	
D2951	Pin retention – per tooth, in addition to restoration	
Endodontic Services		
D3220	Therapeutic pulpotomy (excluding final restoration) – removal of pulp coronal to the dentinocemental junction and application of medicament	If a root canal is within 45 days of the pulpotomy, the pulpotomy is not a covered service since it is considered a part of the root canal procedure and benefits are not payable separately
D3222	Partial pulpotomy for apexogenesis – permanent tooth with incomplete root development	If a root canal is within 45 days of the pulpotomy, the pulpotomy is not a covered service since it is considered a part of the root canal procedure and benefits are not payable separately
D3230	Pulpal therapy (resorbable filling) – anterior, primary tooth (excluding final restoration)	1 per lifetime up to age 6
D3240	Pulpal therapy (resorbable filling) – posterior, primary tooth (excluding final restoration)	1 per lifetime up to age 11
Periodontal Services		
D4341	Periodontal scaling and root planning – four or more teeth per quadrant	1 per 2 years
D4342	Periodontal scaling and planning – one to three teeth per quadrant	1 per 2 years
D7921	Collection and application of autologous blood concentrate product	1 per 3 years

Prosthodontic Services		
D5410,	Adjust complete denture maxillary	
D5411	Adjust complete denture – mandibular	
D5421,	Adjust partial denture maxillary	
D5422	Adjust partial denture – mandibular	
D5511	Repair broken complete denture base mandibular	
D5512	Repair broken complete denture base, maxillary	
D5520	Replace missing or broken teeth – complete denture (each tooth)	
D5611	Repair resin partial denture base, mandibular	
D5612	Repair resin partial denture base, maxillary	
D5621	Repair cast partial framework, mandibular	
D5622	Repair cast partial framework, maxillary	
D5630	Repair or replace broken retentive/clasping materials – per tooth	
D5640	Replace broken teeth – per tooth	
D5650	Add tooth to existing partial denture	
D5660	Add clasp to existing partial denture - per tooth	
D5710,	Rebase complete maxillary denture	1 per 3 years 6 months after initial insertion
D5711	Rebase complete mandibular denture	1 per 3 years, 6 months after initial insertion
D5720	Rebase maxillary partial denture	1 per 3 years, 6 months after initial insertion
D5721	Rebase mandibular partial denture	1 per 3 years, 6 months after initial insertion
D5730	Reline complete maxillary denture (direct)	1 per 3 years, 6 months after initial insertion
D5731	Reline complete mandibular denture (direct)	1 per 3 years, 6 months after initial insertion
D5740	Reline maxillary partial denture	1 per 3 years, 6 months after initial

	(direct)	insertion
D5741	Reline mandibular partial denture (direct)	1 per 3 years, 6 months after initial insertion
D5750	Reline complete maxillary denture (indirect)	1 per 3 years, 6 months after initial insertion
D5751	Reline complete mandibular denture (indirect)	1 per 3 years, 6 months after initial insertion
D5760	Reline maxillary partial denture (indirect)	1 per 3 years, 6 months after initial insertion
D5761	Reline mandibular partial denture (indirect)	1 per 3 years, 6 months after initial insertion
D5850	Tissue conditioning, maxillary	
D5851	Tissue conditioning, mandibular	
D6930	Re-cement or re-bond fixed partial denture	
D6980	Fixed partial denture repair necessitated by restorative material failure	By report
Oral Surgery		
D7140	Extraction, erupted tooth or exposed root (elevation and/or forceps removal)	Medical necessity
D7210	Extraction, erupted tooth requiring removal of bone and/or sectioning of tooth, and including elevation of mucoperiosteal flap if indicated	Medical necessity
D7220	Removal of impacted tooth – soft tissue	Medical necessity
D7230	Removal of impacted tooth – partially bony	Medical necessity
D7240	Removal of impacted tooth – completely bony	Medical necessity
D7241	Removal of impacted tooth – completely bony, with unusual surgical complications	Medical necessity
D7250	Removal of residual tooth roots (cutting procedure)	Medical necessity
D7251	Coronectomy – intentional partial tooth removal, impacted teeth only	Medical necessity
D7270	Tooth reimplantation and/or stabilization of accidentally evulsed or displaced tooth	Does not need to be a bundled service
D7280	Exposure of an unerupted tooth	Medical necessity

D7310	Alveoloplasty in conjunction with extractions – four or more teeth or tooth spaces, per quadrant	1 per lifetime
D7311	Alveoloplasty in conjunction with extractions – one to three teeth or tooth spaces, per quadrant	1 per lifetime
D7320	Alveoloplasty not in conjunction with extractions – four or more teeth or tooth spaces, per quadrant	1 per lifetime
D7321	Alveoloplasty not in conjunction with extractions – one to three teeth or tooth spaces, per quadrant	1 per lifetime
D7471	Removal of lateral exostosis (maxilla or mandible)	1 per lifetime per arch
D7510	Incision and drainage of abscess – intraoral soft tissue	Does not need to be a bundled service
D7910	Suture of recent small wounds up to 5 cm	Medical necessity
D7953	Bone replacement graft for ridge preservation – per site	Medical necessity may be covered as a medical benefit
D7971	Excision of pericoronal gingiva	Medical necessity
Services Not Covered		
D7292	Placement of temporary anchorage device [screw retained plate] requiring flap	
D7293	Placement of temporary anchorage device requiring flap	
D7294	Placement of temporary anchorage device without flap	
D7880	Occlusal orthotic device, by report	
D7881	Occlusal orthotic device adjustment	
D7899	Unspecified TMD therapy, by report	
D7951	Sinus augmentation with bone substitutes via a lateral open approach	
D7952	Sinus augmentation via a vertical approach	
D7997	Appliance removal (not by	

	dentist who placed appliance), included removal of archbar	
D7998	Intraoral placement of a fixation device not in conjunction with a fracture	

Major Services		
Restorative Services		
Note: When dental services that are subject to a frequency limitation were performed prior to an enrollee's effective date of coverage, the date of the prior service may be counted toward the time, frequency limitations and/or replacement limitations under this dental insurance. (For example, even if a crown, partial bridge, etc. was not placed while covered by a CHIP plan, or paid by a CHIP plan, the frequency limitations may apply.) Inlays, onlays, and crowns require prior authorization.		
Code	Service	Limits
D0160	Detailed and extensive oral evaluation – problem focused, by report	By report
D2510	Inlay – metallic – one surface	An alternate benefit will be provided
D2520	Inlay – metallic – two surfaces	An alternate benefit will be provided
D2530	Inlay – metallic – three or more surfaces	An alternate benefit will be provided
D2542	Onlay – metallic – one surface	1 per 5 years
D2543	Onlay – metallic – two surfaces	1 per 5 years
D2544	Onlay – metallic – three or more surfaces	1 per 5 years
D2740	Crown – porcelain/ceramic	1 per 5 years
D2750	Crown – porcelain fused to high noble metal	1 per 5 years
D2751	Crown- porcelain fused to predominantly base metal	1 per 5 years
D2752	Crown – porcelain fused to noble metal	1 per 5 years
D2780	Crown $\frac{3}{4}$ cast high noble metal	1 per 5 years
D2781	Crown -3/4 cast predominantly base metal	1 per 5 years
D2783	Crown – $\frac{3}{4}$ porcelain/ceramic	1 per 5 years
D2790	Crown – full cast high noble metal	1 per 5 years
D2791	Crown – full cast predominantly base metal	1 per 5 years
D2792	Crown – full cast noble metal	1 per 5 years

D2794	Crown – titanium and titanium alloys	1 per 5 years
D2950	Core buildup, including any pins when required	1 per 5 years
D2954	Prefabricated post and core in addition to crown	1 per lifetime
D2980	Crown repair necessitated by restorative material failure	1 per year per tooth
D2981	Inlay repair necessitated by restorative material failure	
D2983	Veneer repair necessitated by restorative material failure	By report
D2990	Resin infiltration of incipient smooth surface lesions	1 per 3 years
Endodontic Services		
D3310	Endodontic therapy, anterior tooth (excluding final restoration)	
D3320	Endodontic therapy, premolar tooth (excluding final restoration)	
D3330	Endodontic therapy, molar tooth (excluding final restoration)	
D3346	Retreatment of previous root canal therapy – anterior	
D3347	Retreatment of previous root canal therapy – premolar	
D3348	Retreatment of previous root canal therapy – molar	
D3351	Apexification/recalcification – initial visit (apical closure/calcific repair of perforations, root resorption, etc.)	
D3352	Apexification/recalcification – interim medication placement	
D3353	Apexification/recalcification – final visit (includes completed root canal therapy – apical closure/calcific repair of perforations, root resorption, etc.)	
D3410	Apicoectomy/periapical surgery	

D3421	Apicoectomy – premolar (first root)	
D3425	Apicoectomy – molar (first root)	
D3426	Apicoectomy (each additional root)	
D3450	Root amputation – per root	
D3920	Hemisection (including any root removal) not including root canal therapy	
Periodontal Services		
D4210	Gingivectomy or gingivoplasty – four or more contiguous teeth or a tooth bounded spaces per quadrant	1 per 3 years
D4211	Gingivectomy or gingivoplasty – one to three contiguous teeth or tooth bounded spaces per quadrant	1 per 3 years
D4212	Gingivectomy or gingivoplasty to allow access for restorative procedure, per tooth	1 per 3 years
D4240	Gingival flap procedure, including root planning – four or more contiguous teeth or a tooth bounded spaces per quadrant	1 per 3 years
D4241	Gingival flap procedure, including root planning – one to three contiguous teeth or bounded teeth spaces per quadrant	1 per 3 years
D4249	Clinical crown lengthening - hard tissue	1 per lifetime
D4260	Osseous surgery (including elevation of a full thickness flap and closure) – four or more contiguous teeth or a tooth bounded spaces per quadrant	1 per 3 years
D4261	Osseous surgery (including elevation of a full thickness flap and closure) – one to three contiguous teeth or a tooth bounded spaces per quadrant	1 per 3 years
D4263	Bone replacement graft – retained natural tooth – first site	1 per 3 years

	in quadrant	
D4270	Pedicle soft tissue graft procedure	1 per 3 years
D4273	Autogenous connective tissue graft procedure (including donor and recipient surgical sites) first tooth, implant or edentulous tooth position in graft	1 per 3 years
D4275	Non-autogenous connective tissue graft (including recipient site and donor material) first tooth, implant or edentulous tooth position in graft	1 per 3 years
D4277	Free soft tissue graft procedure (including recipient and donor surgical sites) first tooth, implant or edentulous tooth position in graft	1 per 3 years
D4278	Free soft tissue graft procedure (including recipient and donor surgical sites) each additional contiguous tooth, implant or edentulous tooth position in same graft site	1 per 3 years
D4283	Autogenous connective tissue graft procedure (including donor and recipient surgical sites) – each additional contiguous tooth, implant or edentulous tooth position in same graft site	1 per 3 years
D4285	Non-autogenous connective tissue graft procedure (including recipient surgical site and donor material) – each additional contiguous tooth, implant or edentulous tooth position in same graft site	Non-autogenous connective tissue graft procedure (including recipient surgical site and donor material) – each additional contiguous tooth, implant or edentulous tooth position in same graft site
D4355	Full mouth debridement to enable a comprehensive periodontal evaluation and diagnosis on a subsequent visit	1 per lifetime
Prosthodontic Services		
D5110	Complete denture – maxillary	1 per 5 years

D5120	Complete denture – mandibular	1 per 5 years
D5130	Immediate denture – maxillary	1 per 5 years
D5140	Immediate denture – mandibular	1 per 5 years
D5211	Maxillary partial denture – resin base (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5212	Mandibular partial denture – resin base (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5213	Maxillary partial denture – cast metal framework with resin denture bases (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5214	Mandibular partial denture – cast metal framework with resin denture bases (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5221	Immediate maxillary partial denture - resin base (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5222	Immediate mandibular partial denture - resin base (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5223	Immediate maxillary partial denture – cast metal framework with resin denture bases (including retentive/clasping materials, rests, and teeth)	1 per 5 years
D5224	Immediate mandibular partial denture – cast metal framework with resin denture bases (including retentive/clasping materials, rests, and teeth)	1 per 5 years

Note: An implant is a covered procedure of the benefits package only if determined to be a dental necessity. If the dental consultants determine that an arch can be restored with a standard prosthesis or restoration, no coverage will be allowed for the individual implant or implant procedures. Only the second phase of treatment (the prosthesis phase-placing of the implant crown, bridge denture or partial denture) may be subject to the alternate benefit provision of the benefits package.

D6010	Surgical placement of implant body:-endosteal implant	1 per 5 years
D6012	Surgical placement of interim implant body for transitional prosthesis: endosteal implant	1 per 5 years
D6040	Surgical placement- eposteal implant	1 per 5 years
D6050	Surgical placement- transosteal implant	1 per 5 years
D6055	Connecting bar – implant supported, or abutment supported	1 per 5 years
D6056	Prefabricated abutment – includes modification and placement	1 per 5 years
D6057	Custom fabricated abutment – includes placement	1 per 5 years
D6058	Abutment supported porcelain/ceramic crown	1 per 5 years
D6059	Abutment supported porcelain fused to metal crown (high noble metal)	1 per 5 years
D6060	Abutment supported porcelain fused to metal crown (predominantly base metal)	1 per 5 years
D6061	Abutment supported porcelain fused to metal crown (noble metal)	1 per 5 years
D6062	Abutment supported cast metal crown (high noble metal)	1 per 5 years
D6063	Abutment supported cast metal crown (predominantly base metal)	1 per 5 years
D6064	Abutment supported cast metal crown (noble metal)	1 per 5 years
D6065	Implant supported porcelain/ceramic crown	1 per 5 years
D6066	Implant supported crown –	1 per 5 years

	porcelain fused to high noble alloys	
D6067	Implant supported crown – high noble alloys	1 per 5 years
D6068	Abutment supported retainer for porcelain/ceramic FPD	1 per 5 years
D6069	Abutment supported retainer for porcelain fused to metal FPD (high noble metal)	1 per 5 years
D6070	Abutment supported retainer for porcelain fused to metal FPD (predominantly base metal)	1 per 5 years
D6071	Abutment supported retainer for porcelain fused to metal FPD (noble metal)	1 per 5 years
D6072	Abutment supported retainer for cast metal FPD (high noble metal)	1 per 5 years
D6073	Abutment supported retainer for cast metal FPD (predominantly base metal)	1 per 5 years
D6074	Abutment supported retainer for cast metal FPD (noble metal)	1 per 5 years
D6075	Implant supported retainer for ceramic FPD	1 per 5 years
D6076	Implant supported retainer for FPD - porcelain fused to high noble metal	1 per 5 years
D6077	Implant supported retainer for metal FPD – high noble alloys	1 per 5 years
D6080	Implant maintenance procedures when prosthesis are removed and reinserted, including cleansing of prosthesis and abutments	1 per 5 years
D6090	Repair implant supported prosthesis, by report	1 per 5 years
D6091	Replacement of replaceable part of semi-precision or precision attachment of implant/abutment supported prosthesis, per attachment	1 per 5 years
D6095	Repair implant abutment, by report	1 per 5 years
D6100	Surgical removal of implant	1 per 5 years

	body	
D6101	Debridement of a peri-implant defect or defects surrounding a single implant, and surface cleaning of the exposed implant surfaces, including flap entry and closure	1 per 5 years, covered if implants are covered
D6102	Debridement and osseous contouring of a peri-implant defect or defects surrounding a single implant, and surface cleaning of the exposed implant surfaces, including flap entry and closure	1 per 5 years, covered if implants are covered
D6103	Bone graft for repair or peri-implant defect – does not include flap entry and closure	Covered if implants are covered
D6104	Bone graft at time of implant replacement	Covered if implants are covered
D6110	Implant/abutment supported removable denture for edentulous arch – maxillary	1 per 5 years
D6111	Implant/abutment supported removable denture for edentulous arch – mandibular	1 per 5 years
D6112	Implant/abutment supported removable partial denture for partially edentulous arch – maxillary	1 per 5 years
D6113	Implant/abutment supported removable partial denture for partially edentulous arch – mandibular	1 per 5 years
D6114	Implant/abutment supported fixed denture for edentulous arch – maxillary	1 per 5 years
D6115	Implant/abutment supported fixed denture for edentulous arch – mandibular	1 per 5 years
D6116	Implant/abutment supported fixed denture for partially edentulous arch – maxillary	1 per 5 years
D6117	Implant/abutment supported fixed denture for partially edentulous arch – mandibular	1 per 5 years

D6190	Radiographic/surgical implant index, by report	1 per 5 years
D6210	Pontic –cast high noble metal	1 per 5 years
D6211	Pontic – cast predominantly base metal	1 per 5 years
D6212	Pontic – cast noble metal	1 per 5 years
D6214	Pontic – titanium and titanium alloys	1 per 5 years
D6240	Pontic – porcelain fused to high noble metal	1 per 5 years
D6241	Pontic – porcelain fused to predominantly base metal	1 per 5 years
D6242	Pontic – porcelain fused to noble metal	1 per 5 years
D6245	Pontic – porcelain/ceramic	1 per 5 years
D6545	Retainer – cast metal for resin bonded fixed prosthesis	1 per 5 years
D6548	Retainer – porcelain/ceramic for resin bonded fixed prosthesis	1 per 5 years
D6549	Resin retainer – for resin bonded fixed prosthesis	1 per 5 years
D6740	Retainer crown – porcelain/ceramic	1 per 5 years
D6750	Retainer crown – porcelain fused to high noble metal	1 per 5 years
D6751	Retainer crown – porcelain fused to predominantly base metal	1 per 5 years
D6752	Retainer crown – porcelain fused to noble metal	1 per 5 years
D6780	Retainer crown – $\frac{3}{4}$ cast high noble metal	1 per 5 years
D6781	Retainer crown – $\frac{3}{4}$ cast predominantly base metal	1 per 5 years
D6781	Retainer crown – $\frac{3}{4}$ cast noble metal	1 per 5 years
D6783	Retainer crown – $\frac{3}{4}$ porcelain/ceramic	1 per 5 years
D6790	Retainer crown – full cast high noble metal	1 per 5 years
D6791	Retainer crown – full cast	1 per 5 years

	predominantly base metal	
D6792	Retainer crown – full cast noble metal	1 per 5 years
D9932	Cleaning and inspection of removable complete denture, maxillary	1 per 5 years
D9933	Cleaning and inspection of removable complete denture, mandibular	1 per 5 years
D9934	Cleaning and inspection of removable partial denture, maxillary	1 per 5 years
D9935	Cleaning and inspection of removable partial denture, mandibular	1 per 5 years
D9943	Occlusal guard adjustment	1 per 2 years
D9944	Occlusal guard – hard appliance, full arch	1 per year, age 13 and older
D9945	Occlusal guard – soft appliance, full arch	1 per year, age 13 and older
D9946	Occlusal guard – hard appliance, partial arch	1 per year, age 13 and older
Services Not Covered		
D0171	Reevaluation-post-operative office visit	
D2410, D2420, D2430	Gold foil	
D2799	Provisional crown	
D2955	Post removal	
D2975	Coping	
D3460	Endodontic implant	
D3470	Intentional reimplantation	
D3910	Surgical procedure for isolation of tooth	
D3950	Canal preparation	
D4230, D4231	Anatomical crown exposure	
D5810, D5811	Complete denture – interim	
D5820, D5821	Partial denture - interim	
D5862	Precision attachment	
D5867	Replacement precision attachment	

D5986	Fluoride gel carrier	
D6051	Interim abutment	
D6199	Unspecified implant procedure, by report	
D6253	Provisional pontic	
D6793	Provisional retainer crown	
D6920	Connector bar	
D6940	Stress breaker	
D6950	Precision attachment	
D9219	Evaluation for deep sedation or general anesthesia	
D9986	Missed appointment	
D9987	Cancelled appointment	

Orthodontia		
Prior authorization required for orthodontic services		
D8010	Limited orthodontic treatment of the primary dentition	
D8020	Limited orthodontic treatment of the transitional dentition	
D8030	Limited orthodontic treatment of the adolescent dentition	
D8040	Limited orthodontic treatment of the adult dentition	
D8070	Comprehensive orthodontic treatment of the transitional dentition	
D8080	Comprehensive orthodontic treatment of the adolescent dentition	
D8090	Comprehensive orthodontic treatment of the adult dentition	
D8210	Removable appliance therapy	
D8220	Fixed appliance therapy	
D8660	Pre-orthodontic treatment examination to monitor growth and development	
D8670	Periodic orthodontic treatment visit (as part of contract)	
D8680	Orthodontic retention (removal of appliances, construction and placement of retainer(s))	

Services Not Covered		
Repair of damaged orthodontic appliances.		
Removable orthodontic retainer adjustment.		
Replacement of lost or missing appliances.		
Services to alter vertical dimension and/or restore or maintain the occlusion. Such procedures include, but are not limited to, equilibration, periodontal splinting, full mouth rehabilitation, and restoration for misalignment of teeth.		

General Services		
Anesthesia		
D9230	Inhalation of nitrous oxide/analgesia, anxiolysis	No age limit for CHIP enrollees
D9222	Deep sedation/general anesthesia – first 15 minutes	
D9223	Deep sedation/general anesthesia – each subsequent 15 minute increment	
D9239	Intravenous moderate (conscious) sedation/analgesia – first 15 minutes	
D9243	Intravenous moderate (conscious) sedation/analgesia – each subsequent 15 minute increment	
D9248	Non-intravenous conscious sedation	
D9310	Consultation - diagnostic service provided by dentist or physician other than requesting dentist or physician	
D9610	Therapeutic parenteral drug, single administration	By report
D9930	Treatment of complications (post-surgical) – unusual circumstances, by report	By report
Services Not Covered		
D0310	Sialography	
D9210	Local anesthesia not in conjunction with operative or surgical procedures	
D9211	Regional block anesthesia	
D9212	Trigeminal division block anesthesia	
D9215	Local anesthesia	
D9248	Non-intravenous conscious	

	sedation	
D9410	House/extended care facility call	
D9420	Hospital call	
D9450	Case presentation	
D9630	Other drugs and medicaments	
D9920	Behavior management	
D9941	Fabrication of athletic mouthguard	
D9950	Occlusion analysis – mounted case	
D9951, D9952	Occlusal adjustment	
D9970	Enamel microabrasion	
D9971	Odontoplasty 1-2 teeth	
D9972, D9973	External bleaching	
D9974	Internal bleaching	
D0472, D0473, D0474, D0480, D0502	Oral pathology lab	
The following services may be covered under medical benefits. Prior authorization required		
D5911, D5912	Facial moulage	
D5913	Nasal prosthesis	
D5914	Auricular prosthesis	
D5915	Orbital prosthesis	
D5915	Ocular prosthesis	
D5919	Facial prosthesis	
D5922	Nasal septal prosthesis	
D5923	Ocular prosthesis (interim)	
D5924	Cranial prosthesis	
D5925	Facial augmentation implant	
D5926	Nasal prosthesis (replacement)	
D5927	Auricular prosthesis (replacement)	
D5928	Orbital prosthesis (replacement)	
D5929	Facial prosthesis (replacement)	
D5931, D5932, D5933	Obturator prosthesis	
D5934	Mandibular resection prosthesis w/guide flange	
D5935	Mandibular resection prosthesis w/o guide flange	
D5936	Obturator prosthesis (interim)	
D5937	Trismus appliance	

D5951	Feeding aid	
D5952, D5953	Speed aid prosthesis	
D5954	Palatal augmentation prosthesis	
D5955	Palatal lift prosthesis (definitive)	
D5958	Palatal lift prosthesis (interim)	
D5959	Palatal lift prosthesis (modification)	
D5960	Speech aid prosthesis (modification)	
D5982	Surgical stent	
D5983	Radiation carrier	
D5984	Radiation shield	
D5985	Radiation cone locator	
D5987	Commissure splint	
D5988	Surgical splint	
D5992	Adjust maxillofacial prosthetic appliance, by report	
D7285	Biopsy oral tissue (hard)	
D7286	Biopsy oral tissue (soft)	
D7295	Harvest bone for autogenous grafting procedure	
D7410, D7411	Surgical excision lesion (benign) soft tissue	
D7412	Surgical excision complicated lesion (benign)	
D7413, D7414	Surgical excision lesion (malignant) soft tissue	
D7415	Surgical excision complicated lesion (malignant)	
D7440, D7441	Surgical excision lesion (malignant) intra-osseous	
D7460, D7461	Surgical excision removal of benign lesion (nonodontogenic)	
D7465	Destruction of lesion (by report)	
D7490	Radical resection of maxilla or mandible	
D7530	Removal of foreign body	
D7540	Removal of reaction producing foreign body	
D7550	Partial ostectomy	
D7560	Maxillary sinusotomy	
D7610	Upper open reduction	
D7620	Upper closed reduction	

D7630	Lower open reduction (simple)	
D7640	Lower closed reduction (simple)	
D7650	Open reduction (simple)	
D7660	Closed reduction (simple)	
D7670	Alveolus closed reduction (simple)	
D7671	Alveolus open reduction (simple)	
D7680	Facial bones (simple)	
D7710	Upper open reduction (compound)	
D7720	Upper closed reduction (compound)	
D7730	Lower open reduction (compound)	
D7740	Lower closed reduction (compound)	
D7750	Malar and/or zygomatic arch open reduction (compound)	
D7760	Malar and/or zygomatic arch closed reduction (compound)	
D7770	Alveolus open reduction (compound - stabilization of teeth)	
D7771	Alveolus closed reduction (compound – stabilization of teeth)	
D7780	Facial bones (compound)	
D7810	TMJ open reduction	
D7820	TMJ closed reduction	
D7830	TMJ manipulation	
D7840	Condylectomy	
D7850	Surgical discectomy	
D7852	Disc repair	
D7854	Synovectomy	
D7856	Myotomy	
D7858	Joint reconstruction	
D7860	Arthrotomy	
D7865	Arthroplasty	
D7870	Arthrocentesis	
D7871	Non-arthroscopic lysis and lavage	
D7872	Arthroscopy with or without a biopsy	

D7873	Arthroscopy surgical adhesions	
D7874	Arthroscopy disc repositioning and stabilization	
D7875	Arthroscopy synovectomy	
D7876	Arthroscopy surgical discectomy	
D7877	Arthroscopy surgical debridement	
D7911, 7912	Complicated sutures	
D7920	Skin graft	
D7940	Osteoplasty for orthognathic deformities	
D7941	Osteotomy lower rami	
D7943	Osteotomy – lower rami with bone graft	
D7944	Osteotomy – segmented	
D7945	Osteotomy – body of mandible	
D7946	Lefort I upper total	
D7947	Lefort I upper segmented	
D7948	Lefort II or Lefort III without bone graft	
D7949	Lefort II or Lefort III with bone graft	
D7950	Bone graft – mandible or face	
D7955	Repair of maxillofacial soft or hard tissue	
D7980	Sialolithotomy	
D7981	Excision of a salivary gland	
D7982	Sialodochoplasty	
D7983	Closure of a salivary fistula	
D7990	Emergency tracheotomy	
D7991	Coronoidectomy	
D7995	Synthetic graft	
D7996	Implant lower for augmentation purposes	
D9975	External bleaching per arch	

General Exclusions

Services and treatment not prescribed by or under the direct supervision of a dentist, except where a dental hygienist is permitted to practice without supervision by a dentist.

Services or treatment which are experimental or investigational.
Services and treatment which are for any illness or bodily injury which occurs in the course of employment if a benefit or compensation is available, in whole or in part, under the provision of any law or regulation or any government unit. This exclusion applies whether or not the enrollee claims the benefits or compensation.
Services and treatment received from a dental or medical department maintained by on behalf of an employer, mutual benefit association, labor union, trust, VA hospital or similar person or group.
Services and treatment performed prior to the effective date of coverage.
Services and treatment are incurred after the termination date of coverage unless otherwise indicated.
Services and treatment which are not dentally necessary do not meet generally accepted standards of dental practice.
Services and treatment resulting from your failure to comply with professionally prescribed treatment.
Telephone consultations.
Any charge for failure to keep a scheduled appointment.
Any services that are considered strictly cosmetic in nature including, but not limited to, charges for personalization or characterization of prosthetic appliances.
Services related to the diagnosis and treatment of Temporomandibular Joint Dysfunction (TMJ).
Services or treatment provided as a result of intentionally self-inflicted injury or illness.
Services or treatment provided as a result of injuries suffered while committing or attempting to commit a felony, engaging in an illegal occupation, or participating in a riot, rebellion, or insurrection.
Office infection control charges.
Charges for copies of your records, charts, or x-rays, or any costs associated with forwarding/mailling copies of your records, charts or x-rays.
State or territorial taxes on dental services performed.
Those submitted by a dentist, which is for the same services performed on the same date for the same member by another dentist.
Those provided free of charge by any governmental unit, except where this exclusion is prohibited by law.
Those for which the enrollee would have no obligation to pay in the absence of this or any similar coverage.
Those which are for specialized procedures and techniques.
Those performed by a dentist who is compensated by a facility for similar covered services performed for enrollees.
Duplicate, provisional and temporary devices, appliances, and services.
Plaque control programs, oral hygiene instruction, and dietary instructions.
Services to alter vertical dimensions and/or restore or maintain the occlusion. Such procedures include, but are not limited to, equilibration, periodontal splinting, full mouth rehabilitation, and restoration from misalignment of teeth.
Gold foil restorations.
Treatment or services for injuries resulting from the maintenance or use of a motor vehicle if

such treatment or service is paid or payable under a plan or policy of motor vehicle insurance, including a certified self-insurance plan.
Treatment or services for injuries resulting from war or an act of war, whether declared or undeclared, from police or military service for any country or organization.
Hospital costs or any additional fees that the dentist or hospital charges for treatment at the hospital (inpatient or outpatient).
Charges for completing dental forms.
Adjustment of a denture or bridgework which is made within 6 months after installation by the same dentist who installed it.
Use of material or home health aids to prevent decay, such as toothpaste, fluoride gels, dental floss, and teeth whiteners.
Cone beam imaging and cone beam MRI procedures.
Precision attachments, personalization, precious metal bases and other specialized techniques.
Repair of damaged orthodontic appliances.
Replacement of lost or missing appliances.
Fabrication of athletic mouthguard.
Internal and external bleaching.
Oral sedation.
Topical medicament center.
Bone grafts when done in connection with extractions, apicoectomies, or non-covered/non-eligible implants
When two or more services are submitted and the services are considered part of the same service as one another, the benefits package will pay for the most comprehensive service (the service that includes the other non-benefitted service) as determined by the benefits package.
When two or more services are submitted on the same day and the services are considered mutually exclusive (when one service contradicts the need for the other service) the benefits package will pay for the service that represents the final treatment
All out of network services covered are subject to the usual and customary maximum allowable fee charges as defined by the CHIP benefits package. The member is responsible for all remaining charges that exceed the allowable amount.
