

Texas WIC Health and Human Services Commission

Effective June 1, 2024

Policy No. FD:15.0

Issuance of Ready-to-Use Formula

Purpose

To ensure the availability of ready-to-use formula (RTU) to WIC participants with specific needs.

Authority

7 CFR Part 246.10

Policy

Formula will be issued in concentrated liquid or powder form unless the participant's circumstances meet the criteria for ready-to-use formula issuance outlined in this policy as determined by a certification authority (CA).

Procedures

- I. RTU formula will only be issued due to one or more of the following conditions:
 - A. The participant's household has an unsafe, unsanitary or limited water supply, or poor refrigeration;
 - B. The parent/caretaker or participant is unable to correctly dilute or prepare formula;
 - C. The formula is available only in a RTU form.
 1. Formula manufactured only in RTU form should be issued as RTU for the full length of approval.
 2. Local agency staff should refer to the state agency for guidance on the appropriate length of issuance for formula that is temporarily unavailable in powder or concentrate form, such as in the event of a shortage or recall.

Texas WIC Health and Human Services Commission

Effective June 1, 2024

Policy No. FD:15.0

-
- D. The use of RTU **therapeutic** formula for infants, and any formula for women and children, better accommodates a participant's condition (e.g., compromised immune system). Refer to the specific formula in the Texas WIC Formulary; or
 - E. The use of RTU therapeutic formula for infants, and any formula for women and children, improves a participant's compliance in consuming the prescribed formula. Refer to the specific formula in the Texas WIC Formulary.
- II. The continued issuance of RTU must be evaluated at each formula approval for therapeutic formulas and each time formula benefits are issued for contract formulas.
 - III. When issuing RTU formula, a CA must document the reason for issuance in the participant's record.
